Lead and Copper Monitoring Requirements

Lead and copper samples must be collected at the highest risk sites from a Department-approved sample pool.

Examples:

- An available Tier 1 site must be sampled before all other Tier and Non-Tier, Representative sites.
- An available Tier 2 site must be sampled before Tier 3 and Non-Tier, Representative sites.
- An available Tier 3 site must be sampled before Non-Tier, Representative sites.

Certification

During the monitoring period, lead and copper samples were not collected from unavailable or improper highest risk site(s) in the sample pool due to following reason(s):

Reasons	List the State Sample Site ID(s) (e.g. LCR###)
Site(s) were vacant.	
Site(s) were inaccessible due to customer refusing to sample or unsafe conditions.	
Site(s) were inaccessible due to customer being unresponsive to at least 2 contacts (e.g. phone, in-person, mail, bottle drop offs).	
Site(s) had recent plumbing work completed.	
Site(s) were re-plumbed and are no longer considered high risk sites (e.g. lead service line replaced or copper pipe with lead solder removed).	
Site(s) had a water softener or filtration system installed.	
Other:	

If there are changes to the system's sample pool sites or materials evaluation as a result of the reasons cited above, submit updates to the Department, preferably on the Portal at wqcdcompliance.com/login.
